  - Extensive low-level **Windows and Linux** experience (used for a long period to host personal and professional websites)

---

## OTHER INTERESTS

I'm a keen filmmaker in my spare time, a lot of my time as a kid was spent behind a camera. I enjoy building electronic projects using cheap items I can scavenge. I like all things 3D, including printing and making. When I need to unwind, I find time to play the Guitar or Piano and the odd Computer Game.
